

TWO GULFS EXPERIENCE

Liguria Revealed By The Sea

SURROUNDING PORTOFINO

Capt. Luca offers a premium tour reserved for travelers who appreciate authenticity and expect an exclusive and memorable experience.

In the words of Capt Luca:

“Ladies and Gentlemen, welcome on board. Join me and let me guide you. I will be truly happy once you have experienced a little of our precious sea and felt the soul of our beloved coastline.

*”Let’s go discover the five **most beautiful “Places To Be”.***

Santa Margherita Ligure – Sestri Levante

Portofino – San Fruttuoso – Camogli

The journey begins as we set sail from Santa Margherita and the story unfolds as we explore the Gulf of Tigullio and the Gulf of Paradise.

Home Port : Santa Margherita Ligure

*... We glide past historic villas and seaside castles, a sequence of gardens overlooking the water, stairways, tiny docks and pine trees standing so close to the sea they are almost touching it. This is where the hidden coves of **Prelo and Trelo** appear, with their ancient houses resting against the water, like silent guardians of the Mediterranean.*

Prelo and Trelo - Scenic pass-by

The landscape then opens onto the pictureseque villas around Zoagli, suspended between sea and sky and onto small hidden bays reachable only by boat, where crystal-clear waters invite you to dive in.

...Swim Spots Small bays accessible only from the sea. Clear water, silence, nature. You swim, you dive, you sunbathe, you laugh, you enjoy pure freedom. Every stop is different; every swim becomes a memory you take home with you.

...And time belongs to you.

Bay Of Silence - Scenic pass-by

We continue towards the turquoise waters of the stunning Bay of Silence in Sestri Levante.

A natural amphitheater embracing the ancient houses built right on the white sand, a place unrivalled for its history, originality and beauty. One of the most breathtaking natural views in Italy.

We now head west, towards the Mediterranean's most precious jewel:

Portofino

stopover

The most beautiful coastline in the Mediterranean. Here, nothing is overpromised: every curve of the coast is a surprising delight.

Portofino tiny yet immense, intimate yet majestic, somewhere everyone wants to be. Arriving from the sea feels like securing a front-row ticket to a grand premiere.

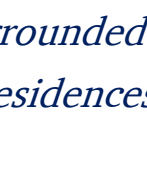

A gentle tour around the harbor allows you to feel and experience its iconic atmosphere. If you wish, we can dock for an excellent espresso and a stroll amongst the luxurious boutiques.

In the Two Gulfs Tour, nothing is overpromised: everything here is a heavenly surprise.

Baia Cannone - Stopover

Diving here is a

privilege.

A swim to remember, surrounded by silence and the private residences of numerous celebrities.

We continue our journey, sailing around the scenic Portofino Lighthouse the mystical gateway to the Ligurian Sea. A quiet moment to admire it in total freedom.

We set sail again.

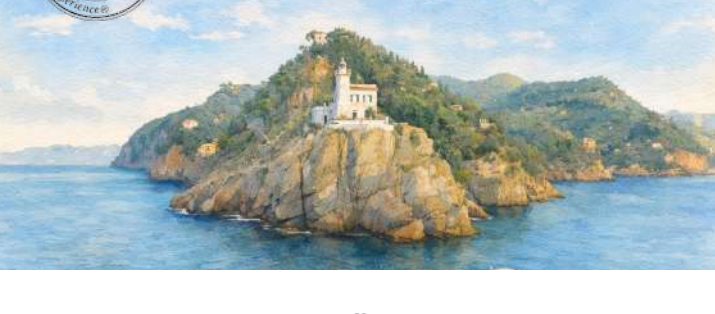

*We leave one of the most beautiful
coves in the world to reach another,
even more exclusive one,*

rounding the scenic Portofino

Lighthouse once more,

in total freedom

*We cruise through the Marine Park,
where the sea is deeper and the
coastline is wilder, until we reach
Capo di Monte a marvel of rock and
light, then, as if by magic,
the Abbey of San Fruttuoso,
accessible only by sea, arises
majestic between the sea and the
hills.*

Here time stops and nature, history

and spirituality become one.

*Words can only tell you so much
you have to see it with your own
eyes.*

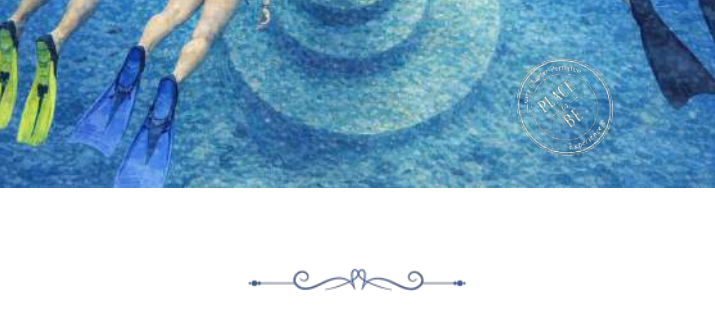

*The highlight of this stop is the
visit to the **Christ of the Abyss**, in
the cove next to the Abbey of
San Fruttuoso.*

*Diving into the deep blue,
snorkeling with a simple mask, or
even just seeing the **Christ** from the
surface is an experience **you will
never forget**, leaving you
speechless for its intensity, its
serenity and the sacred atmosphere
surrounding it.*

...Stopover

*The journey continues toward the historic and enchanting **Camogli**, “The House of Wives” the most authentic of all seafaring villages, the most deeply rooted and lovingly preserved.*

A place where seafarers, local fishermen and merchant sailors carved out real stories of the sea, passed down through centuries.

Medioeval Harbour of Camogli

Its maritime soul is something you must see and feel for yourself at least once in a lifetime and it reveals itself only to those who arrive from the sea.

»We return to Santa Margherita happens at the most precious time of the day : the sea turns to silk, the sun slowly dips and everything is brushed with gold. It is the exact moment when the journey stops being a path and becomes a memory taking shape. You lie back, raise a glass and just breathe. The coastline gently fades, the silence deepens and the light rests upon your skin like a promise. This is where the Tour of the Two Gulfs reveals its greatest secret: it doesn't just show you places, it gives you back time. Time to look at one another, to feel, to let beauty wash right through you. And now that the journey is complete...»

«What a Wonderful Day »

"You can choose whichever port return time suits you best."

The tour can extend up to eight hours, while remaining fully flexible to match the time you have available.
